ABSTRACT

To Do Android App Project is an application, as the name suggests it is a To-Do list holding app. It'll store the users schedules and their upcoming meetings or events. In this application, users will be enabled to write their important notes as well. To make it safe, provide a login page before the user can access it. They will get the access to the write section. Here the users can note down the things and store them permanently. Users can also alter the data or delete them. User can add the tasks that are to be done in a descriptive way and able to add as many tasks as the user can. Once the task is completed, the user will be able to remove it .The tasks that will be added by the users are stored in the list view.
