Environmental Conservation

Environmental conservation is the biggest challenge that we are facing today. Since it is too late to realize that, it's time to join our hands to keep our future safe. In order to implement truly significant environmental policies, they need to be integrated with the city's strategies and all management.

Today on 14th October 2018 we the Cadets of 6 KAR AIR SQN NCC Mangalore (Flight-B) conducted a social activity to create awareness of Environmental Conservation at Hamsanagar.

We started from vidyagiri, we went to each and every house and we gave some awareness about the environment conservation, the consequences of environment pollution, ill effects of deforestation and benefits of afforestation. Mother earth would not have any global warming if we plant trees instead of cutting them. We told them to use the Public transport instead of using their own vehicle, In some houses we saw the plastics bags and we told them to not to throw and burn the plastics, they should be put in the dry waste and disposed so that the soil in that area would be safe, we also told the consequences of deforestation by giving the example of Kerala flood and Madikeri landslides.

We also told them that we don't like that to happen here so please join hands to conserve nature which conserves the environment and we all together can live happily for long years ahead.
